Habitat Management Program (HMP)

FOR OFFICE USE ONLY:

Version # _____

APP # 700374

PART 1 - ITEM 1. DETERMINE THE NEED FOR FULL FULL HABITAT MANAGEMENT PROGRAM (HMP)

All Applicants submitting Projects involving Ground Disturbing Activities are subject to HMP requirements. The HMP must cover the combined Project Area of all proposed Projects with Ground Disturbing Activities.

Applicants able to certify that none of the proposed activities listed in the Application in areas open to legal OHV Recreation contain any risk factors to special-status species and/or sensitive habitats shall submit only HMP Part 1. Applicants who cannot certify that the proposed activities listed in the Application in areas open to legal OHV Recreation do not contain any risk factors to special-status species and/or sensitive habitats shall submit HMP Parts 1 and 2.

1. Do any of your proposed projects involve Ground Disturbing Activities? (Please select Yes or No) ☐ Yes ☒ No
2. Can the Applicant certify that none of the proposed Projects with Ground Disturbing Activities in areas open to legal OHV Recreation contain any risk factors to special-status species and/or sensitive habitats? (If you checked 'Yes', you are done with HMP) (Please select Yes or No) ☐ Yes ☐ No

B. Public Comments

ITEM 1- Grant funds are to be used only for the administration and management of OHV related recreation activities.

OHV grant funds are not and will not be utilized for the purpose of illegal marijuana eradication. We receive annual funding through the grant, "Campaign Against Marijuana Production" (CAMP). However, a large number of these illegal grow locations are located in very rural areas of the county and these grows are established and supplies are brought into the grow locations through trespassing an illegal OHV activity. We receive numerous reports of trespassing with OHV equipment in our rural areas. This illegal OHV activity is directly related to the cultivation of marijuana in our rural areas. We are seeking the equipment that will help us monitor and investigate this illegal activity.

ITEM 2 - Personnel time used to respond to disasters, floods, fires, evacuations, and metal theft is also not related to OHV recreation.

The Sheriff's Office did not request grant funding for personnel time. We did put personnel time as a grant fund match. We supply personnel to assist Carnegie Park for their large events at no charge as an example of matching funds.

In our Altamont Pass hills it is common practice that persons committing metal theft on the vast number of windmills utilize OHV vehicles to commit these crimes. This is illegal OHV activity and is also trespassing. We suppress this activity out of our own budget. We are only requesting equipment that will help us investigate illegal OHV access to these lands.

ITEM 3 – Law Enforcement Officers: It appears that 20 hours at \$1,000 per hour is being requested.

The Sheriff's Office did not request grant funding for personnel time. We did put personnel time as a grant fund match. We supply personnel to assist Carnegie Park for their large events at no charge as an example of matching funds. In the grant application, the Sheriff's Office said it will commit \$21,750.00 in law enforcement time as a match for the grant money requested. The way OLGA is structured, it was the only way we were able to input our matching costs. The Sheriff's Office is committed to the OHV program.

ITEM 4- Materials / Supplies: Applicant may want to provide additional detail about Safety Equipment purchases.

The Sheriff's Office is requesting grant funds to purchase 10 safety helmets and 10 pairs of safety gloves. The Sheriff's Office has been and will supply all other safety equipment.

We are also requesting grant funding to properly outfit the requested RTV vehicles. The equipment requested consists of emergency lights and sirens for the three RTV vehicles. Each RTV would be outfitted with emergency lights, sirens and controllers which cost \$1528.00 for each vehicle. Additionally, we would like to install base station radios which will be programmed with all state mutual aid channels including fire service and medical channels. This will allow us interoperability with multiple agencies including the State Parks Police. Each radio cost \$5,000.00.

ITEM 5- Equipment Purchases: Purchase of three Polaris Rangers with a total person capacity of 12 appears to be excessive.

The purchase of three RTV vehicles with a total seating capacity of 12 would be utilized to deploy personnel to separate areas simultaneously. For example, if there is a missing person at Carnegie State Park. We would be able to start three separate search teams at one time. Our Search and Rescue unit has 48 members, having these vehicles will allow us to deploy them with all their equipment, search dogs, back boards, medical supplies ect... to various areas to conduct a coordinated grid search simultaneously. Without the requested equipment, our ability to begin a large scale search would be dramatically slowed down and the areas we could search simultaneously would be restricted and reduced.

Another benefit to the RTV, is unlike our current response vehicles the Dual-Sport motorcycle, we can deploy multiple personnel to an area and if needed can take persons into custody and transport them out of the area.

Prior to requesting the grant funding to purchase three (3) RTV's I talked with State Parks Police Lieutenant Gary Hughey who supervises law enforcement at Carnegie State Park. Lieutenant Hughey told me that the park currently uses the RTV's and that he is requesting they purchase more of them. He said the RTV is the most valuable tool that he has and that it performs much better than any vehicle. Lieutenant Hughey said that the RTV is the best vehicle for evacuating injured persons and has proven to be the most stable platform for backboards and can access just about any location. Based on our conversation, and additional research, the Sheriff's Office determined that these vehicles would substantially enhance our abilities to assist the State Parks Police and respond to rural areas.
